

#7.5 February 9, 2022

Greetings,

This note is providing your club with the latest updates to the AVA Website Legacy Sanction changes.

About the end of February, the AVA Legacy site will be taken offline for sanctioning and updates. Your club will receive a notice 5 days before the scheduled updates from AVA so you can complete any sanctions you have started or revisions you intend to do. The Legacy input system will be down for 3-5 days.

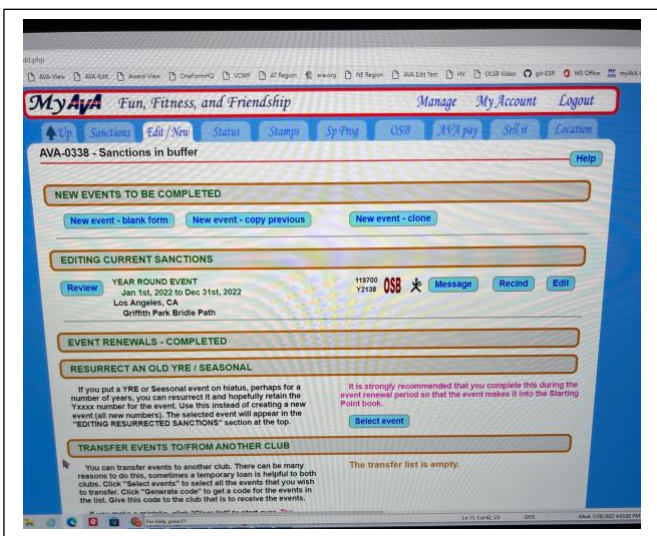

During this time all other features will be available.

- All event information will be available through my.AVA.org for your viewing.
- You may still update your participation reports, even though it is in the legacy system.
- OSB will be working.

You will love the new system!

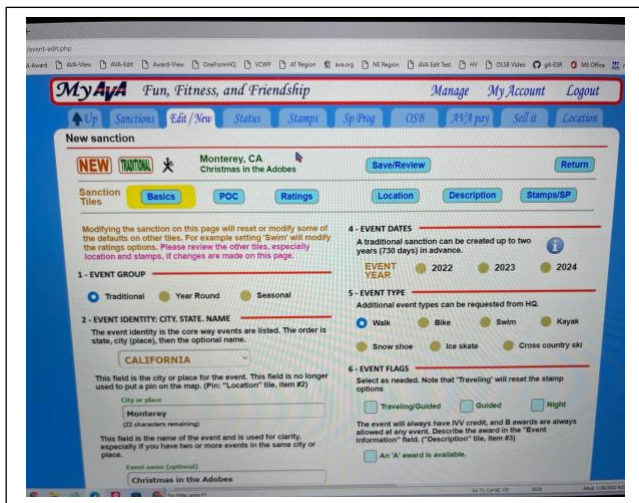

Please note: you will not be able to submit new form until all fields are filled.

Examples of new format:

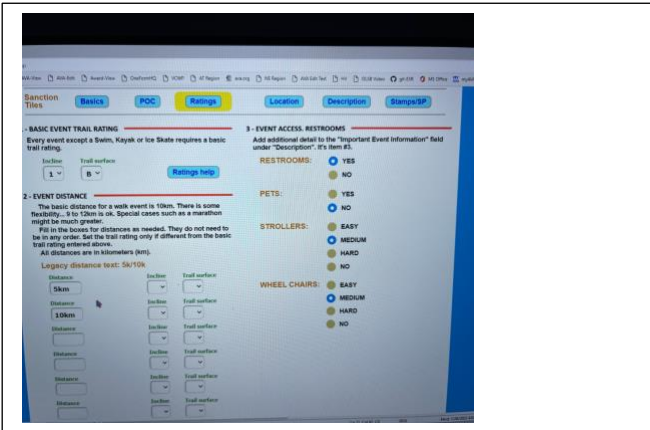

The new sanction method starts with the tab that is white (Edit/New)
There are now 3 choices:

- New Event
- Copy an old event
- Clone (great for multi-day events where your start point has many walks starting at the same place.

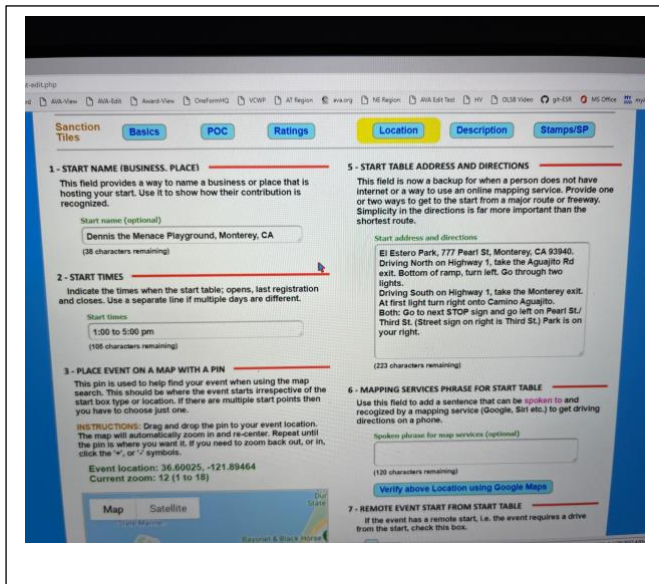

The next page has input areas for the “Basics” of the event.

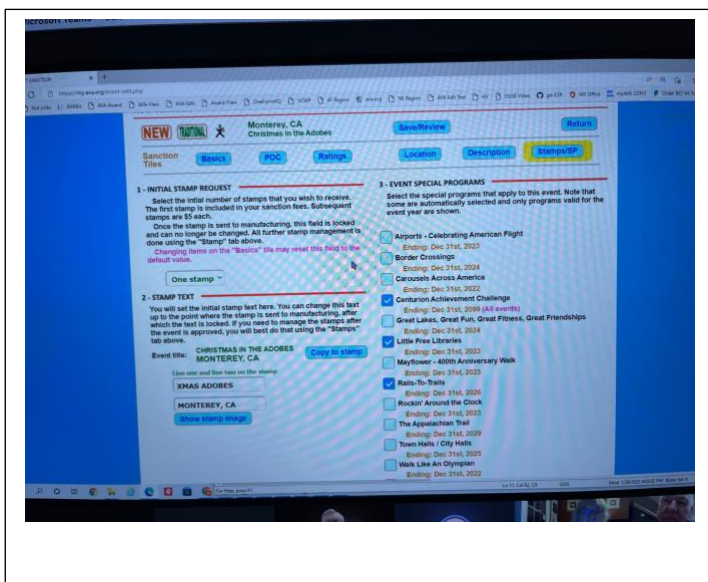

Trail Ratings and more
You can now enter different trail ratings if the 5K is different than the 10K.

Nicer input for other details.

Location page makes it easier to get accuracy in exact location of your walk event.

Stamp and Special Programs Page is laid out nicely to make your input **easy**.
